Property Tax Software that Simplifies Revenue Management for Local Government

Aumentum Tax provides jurisdictions with a complete range of property tax software tools, including levy management, billing, collection, cashiering, and special assessments, to accurately and fairly bill, collect, and apportion property taxes. Aumentum Tax meets the tax revenue management challenges you face every day, from easily accommodating legislative and technology changes to sharing data with the public and with other government offices.

Info Center

Show aggregated information from all offices, reducing workload on staff, and empowering customer service representatives without the need to pass the customer between offices.

Executive Dashboard

Review up-to-date visual data of office and staff activities, collected in real-time by location, source, service and more.

Unlimited Event Log

Document the history of every event and transaction associated with a specific property.

Distribution

Calculates the tax revenue due to the agencies and is capable of withholding commissions from disbursements.

Business Revenue

Our comprehensive, automated Business Revenue solution includes Business Tax, Trust Tax or self-reporting taxes, as well as Cannabis. Business Revenue has a complete import and discovery/preview tool for accepting data from external sources.

Tax Sale

Tax Sale facilitates all the activities leading up to and including the auction of liens or the auction of the property itself due to severe delinquency.

Benefits of *Integration*

Aumentum Tax is part of our modular, fully integrated Tax, CAMA and Assessment solution, Aumentum Platform. Aumentum Platform brings new feature functionality and many opportunities for Counties to gain efficiencies around workflow and integration. Aumentum Platform includes Aumentum Valuation, our CAMA and Assessment system, as well as Aumentum Public Access.

Harness the power of an integrated solution by selecting all of these best-of-breed modules, allowing for one system of record, enhanced system workflows, customer service improvements, and the ability to streamline how your constituents interact with the County.
