Modern Property Tax Software *Built for Georgia*

Modernize your office while increasing efficiencies for your staff. VCS^{Tax} Web is a comprehensive solution for tax collection officials in the State of Georgia. Our enhanced web-based solution includes many new modules and features, while keeping the same easy-to-use interface that our users depend on.

Tax Allocation District (TAD) Management

Our TAD Manager oversees the allocation of millage rates and stipulation adjustments to support redevelopment projects within designated districts.

FiFa Import and Management

Our groundbreaking FiFa Manager streamlines the Tax Lien process, automating paperwork to save you time and effort. Enjoy a hassle-free experience with efficient and accurate tax lien management. The VCS^{Tax} Web FiFa import utilizes Artificial Intelligence to process the FiFa Recordings and Releases into a document repository.

Real Time Web Payment Compatibility

Continual Enhancements to provide the best user experience possible. Seamlessly integrate with your Web Electronic Bill Payment providers for efficient and secure transactions.

Continual Enhancements

Experience ongoing improvements designed to deliver the best user experience possible, ensuring your system remains leading-edge. The user group-focused initiative along with continuous improvement is what makes VCS^{Tax} stand out above the rest.

Digest Wizards

Utilize our Digest Wizards to streamline DOR submissions across all Assessor Vendor packages, simplifying your workflow. Our Digest Wizards will guide you through complex tasks step-by-step, making processes easier and more intuitive, resulting in error reduction.

Open Database Connectivity

ODBC provides direct access to your database, enabling efficient and customized report creation for detailed data analysis. It enhances flexibility, cross-platform compatibility, and overall efficiency in data management.
