TECHNOLOGIES

Experienced Team • Trusted Partner • Innovative Solutions

The background of the slide features a black and white photograph of several modern skyscrapers, likely office buildings, under a cloudy sky. Overlaid on this image is a network of thin, light-colored lines forming a hexagonal grid pattern, suggesting a digital or connectivity theme.

RECORDS MANAGEMENT **STREAMLINED**

With Aumentum Recorder, you can streamline your processes and serve the public's interest with ease — even as you manage documents and information from multiple channels and provide secure records anytime, anywhere. And with fast access to information, and the ability to access public records through the internet, your staff will be able to provide a higher level of customer service.

Robust Capabilities

Aumentum Recorder provides the complete range of recording capabilities, including real estate, licensing, marriage, and vital records, automated indexing and redaction, backfile conversion and indexing, full text OCR searching on images and e-recording from any trusted submitter. Plus, flexible workflow and user customization features mean you can use the system the way you want to.

Real Estate

Efficiently manage real estate documents such as deeds, deeds of trust, mortgages, liens, releases, abstracts of judgments, and notices. Staff can easily scan and record documents while conducting quality control and image enhancement operations to ensure excellent images.

Vitals Records

Receive, scan, index, import, and image birth and death records enhancing your office's ability to produce copies, flag records for fraudulent activity, and expunge records as required. Create certified copies of birth and death certificates.

Web Public Access

Increase staff productivity by reducing office foot traffic and providing instant access to County records over the internet.

Marriage Documents

Streamline the marriage application and issuance process. All tools are included, such as the online marriage application, validation against all business rules, and form printing of all state and local forms.

Security

Apply variable security to documents at various levels of document sealing. Create a tightly secured system that helps guard document integrity and confidentiality — and increase public trust.

eRecording

Streamline document submission and indexing, audit every step of the process, improve turn-around time, and reduces costs for both your office and your customers, as well as the submitter.

Cashiering and Accounting

Robust, integrated cashiering system with cash drawer support, point-of-sale credit card processing, refund and non-sufficient fund check tracking, auto-fee calculation, and ledger disbursement.

Visual Workflow

Drag and drop individual workflow components to optimize the records management process.

Recorder Highlights

Part of our government revenue management suite, Aumentum Tax provides you easy-to-use tools for handling tax related functions—such as managing real and personal property taxes, mobile homes, mineral, motor vehicle and special assessments. It also provides you with user-defined tax units and rate tables; tracks property splits, combinations and transfers, and allows comprehensive searches and inquiries. Plus, it automates delinquencies, tax sales, and interest and penalty calculations.

ECommerce Integration

Full eCommerce capabilities include a shopping cart for credit card purchases such as ordering certified copies, as well as saved searches and account management.

Robust Security

Guard confidentiality with overlapping security layers, including auditing layers for user, workstation, and document tracking.

Customizable Workflow

Set up workflows the way you want. Drag and drop individual workflow components to configure the system in real time.

Executive Dashboard

Track staff inefficiencies and productivity through executive dashboards so managers can make better, quicker decisions.

Reduce Office Traffic

Reduce time-consuming visits to your office by allowing the public to search, view, and print county records online.

Powerful Multitasking

Boost productivity with technology that lets you handle several processes at once, from running reports to viewing images.

Efficient Data Collection

Collect constituent data once to see it automatically populate into other systems, from billing and collection to the valuation roll.

Site Analytics

Get multiple statistical reports and views that show the workflow of the office and individual employees.

Partner with Aumentum Technologies

Aumentum Technologies designs, develops, markets and supports a family of tax, valuation and records management solutions for county, city and township governments. For five decades our experienced team has focused on developing and delivering state-of-the-art software to our government customers. Through thousands of installations and deployments around the world, our customers have experienced the benefits of effective property administration, valuation, taxation and document recording for their constituents.

Experienced

We've powered over 1,000 government offices with reliable, innovative solutions. With over 3,000 years of combined experience in collective software development, our staff developed the most in-depth tax solution available today.

We're dedicated to continually improving our products with your feedback. Through our user conferences, ongoing training, and innovation labs, we've heard your feedback about how to make our software work for you.

Innovative

Our team of accomplished professionals develops the highest quality software products on the most modern and scalable technology platform.

We put our expertise to work for our customers across the country to help them better serve their constituents.

Customer Testimonial

"I've looked at other programs, but what really keeps me with Aumentum is the people."

If I didn't understand something, they'd come in and explain it. If we needed something extra, like the brands module, they helped us figure it out."
